DUTRON® P+US

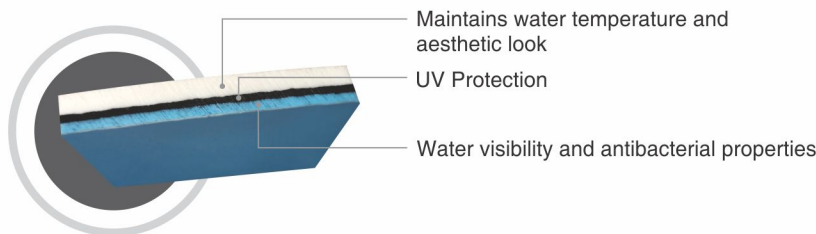

ANTIBACTERIAL WATER TANKS

- Contains Antibacterial Properties
- Zero effect of bacteria, to keep water safe
- Strong & Unbreakable
- 100% UV Protection
- Made from 100% Virgin Material
- Food grade material
- Safe for Drinking Water
- Clean & Odourless water due to threaded lid with Air Vent
- Ideal for Bungalow, Flat, School, Colleges, Office Complex, Construction Sites, Industries & Agricultural Uses

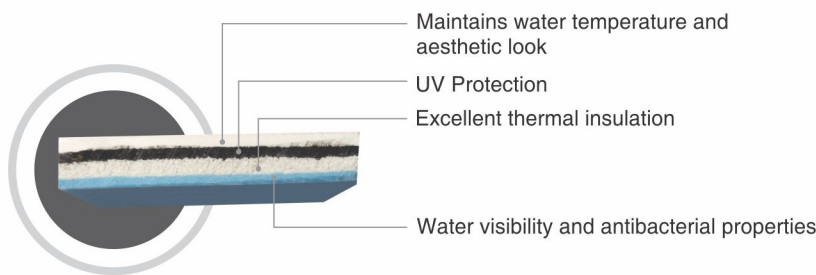

3 Layer

- Roto-moulded water storage tank
- Ribbed mechanical design ensures better strength and durability
- Aesthetic look
- Superior quality and long lasting performance

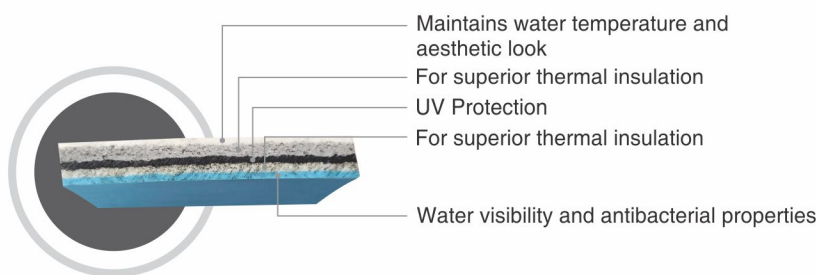

4 Layer

- 4 layers designed with one layer of foam for better insulation properties
- Foam keeps water cool during summer and lukewarm in winter
- Roto-moulded water storage tank
- Ribbed mechanical design ensures better strength and durability
- Aesthetic look
- Superior quality and long lasting performance

5 Layer with Dual Foam

- 5 layers designed with dual foam for Excellent insulation properties
- Foam keeps water cool during summer and lukewarm in winter
- Roto-moulded water storage tank
- Ribbed mechanical design ensures better strength and durability
- Aesthetic look
- Superior quality and long lasting performance
